Football Program

The members of the Board of Education consider athletic activities to be an integral part of the Portland School District's educational program for high school students. Although athletic competition is extra-curricular, its effects are felt throughout the entire school program as it engenders enthusiasm, pride and school spirit among the students and school staff.

Nearly half of the school district's 19,000 high school students are directly involved in interscholastic athletics as athletes, band members, rally squad leaders and pep club members. The other young men and women become involved as spectators.

The district's athletic program includes twelve sports that have given many boys and girls the opportunity to develop their personal skills and attitudes through athletic participation. The Portland schools will continue to offer such opportunities to youth because experiences in athletic activities contribute to their physical, emotional and mental well being in ways that enhance their entire lives.

We encourage all students to be involved in the athletic program as participants or spectators and wish for each an enjoyable sports year. As each of you gives his energy and support to his teams and school, we urge you to remember that high school athletics are games played for enjoyment and that a spirit of good fellowship and sportsmanship among schools and students throughout the city should prevail at all times.

Athletics should foster friendship and good relationships among schools.

Activities that can help develop this positive attitude of good will are:

1. Greet other schools' supporters with friendliness.
2. Recognize and applaud good play by opponents as well as by your own team.
3. Be humble in victory and gracious in accepting defeat.
4. Learn to accept officials' decisions regardless of merit.
5. Cooperate with Dads' Club members, ushers, school officials and rally squads.
